INTRODUCTION

Pure South

THERE IS CHANGE IN THE AIR WITH A DEEP SOUTHERLY SHOWING WHAT WINTER HAS IN STORE FOR US. THAT BRACING, COLD, CLEAN AIR WILL AWAKEN OUR SENSES TO INVIGORATE AND ENERGISE US FOR THE COMING SEASON.

We are taking the time to detox, breathe and declutter, while reaping the rewards of restorative moments that we have carved out for ourselves as being “offline” becomes a part of our habitual routine. We are reminded of the need for self-care and wellness and look to the bedroom as a place of sanctuary. This season is a mix of airy and light colour tones combined with deep, dark fluid shapes representing movement in the ocean, sky, and coastline. We are inspired by translucent and gloss glazes, recycled glass and natural pale wood. Graphic topographic lines, blobby spots and plaids are also catching our eye. Shapes and edges are rounded with soft curves evoking a feeling reminiscent of ocean waves, cloud formations and the movement of bubbles. Deep-sea inspired designs are key, and we see plankton, algae and seaweed influence print and pattern along with the warmth of the rocks along the coastline morphing into marbled, layered effects.

HIGHLIGHTS | DOMUS

THE BEAUTY OF DOMUS LIES IN ITS ABILITY TO REDUCE WASTAGE BY UPCYCLING PRODUCTION SECONDS.

These reclaimed ceramic pieces are ground down to a fine powder and added to new clay materials to create the unique colour flecks and shapes that make each piece so unique. You can see the fine granules of ceramic and glazes, and these act as a reminder of the history woven into the finished product. By drawing on these recycled components Domus is breathing new life into ceramic cast-offs, marking just one small step in helping to build a more sustainable future.

HIGHLIGHTS | NORI

WHEN DEVELOPING NORI, DESIGNER SARAH STRICKLAND LOOKED TO BLEND ATMOSPHERIC ELEMENTS FROM LAND AND SEA TO CREATE A MODERN TAKE ON A FLORAL TEA STORY.

We're drawn to the way the colours and textures echo the rough and rugged coastlines of Australia, seen in the earthy, clay-like tones as well as the touch and feel of the textural glaze elements. The ocean-inspired designs of seaweed-like florals and marine algae float across an airy, speckle milk glaze while the floral centres are hand-decorated, delivering folk art cues with a contemporary feel.
